Newest Fancies!

The newest shade is tomato red. Smoked pearl buttons have designs in relief. Very close about the wrists are the w lined cuffs. Heliotrope retains its place as a color and perfume. Rosettes of owl feathers have beads at feathered pendants. Pearl and diamond stars may be used as brooches or hair pins. A Scotch plaid, which is very small is among the new goods.

For plaids go to
GEORGE DEWALD & CO.
Rough curled fabrics are shown extensively this season.
For rough dress goods go to
GEORGE DEWALD & CO.
For general wear this season chevrot, tweed and canvas goods take the lead. The above goods can be found at
DEWALD & CO'S.

Lace boas, so much worn abroad last season, are again seen. They are made of Chantilly and point d'esprit lace. Seventy yards of lace are required for their fabrication.
For lace go to
GEORGE DEWALD & CO.
More quaint, pretty and beautiful things are shown at the fancy stores this season than ever before, the majority coming from Europe. It will be a great season for Christmas shoppers.

For Christmas goods go to
GEORGE DEWALD & CO.
It seems decided there is to be a scarcity of India shawls. In India there are "only a few more left," and these inferior. Happy the owners of the "genuine." For shawls go to
GEORGE DEWALD & CO.

Something new in a seal skin muff is square, with a place in the rear for the hands. The top lifts up, and holds "trifles." It is supposed to be worn by a cord around the neck, and is rather too unique to be generally fashionable.
For Muffs go to
DEWALD & CO.

Colored silk handkerchiefs, with striped and dotted borders, are used for trimming hats and bonnets.
For Silk Handkerchiefs go to
DEWALD & CO.

Oriental mufflers for dudes sensitive to cold are quite showy enough to attract attention.
For Mufflers go to
DEWALD & CO.

Something very lurid in color is the glove worn by local Brummels "for the street, you know."
For gloves go to
DEWALD'S.

All shades of brown are fashionable, and bronze brown is held in high favor for evening dress combinations.
For Brown Dress Goods go to
DEWALD'S.

Bright red will in a great measure be supplanted by bright yellow in brightening dark costume.
Very high collars on wraps and dresses make the girls of the period look as if they had sore throats.
For Collars go to
DEWALD'S.

Among the fashionable combinations black and yellow retains its popularity. Jet ornaments were never handsomer or never more fashionable than this season.
The tape stripe among the new woollens look as if had been sewed on the fabric.
For striped dress goods go to
GEO. DEWALD & CO'S.

Newest Parisian fashion plates are said to show a marked decrease in size of bustle.
For Bustles go to
GEO. DEWALD & CO'S.

People who thought plush was going out of fashion are now convinced they were mistaken.
For Plushes go to
GEO. DEWALD & CO'S.

The new shade of bottle-green is called Russe. The green supposed to have been worn by Robin Hood and his merry outlaws will also be in high favor.
For green dress goods go to
GEO. DEWALD & CO'S.

Ribbon tied about Flora McFlimsey's neck is wider than heretofore worn, and is tied in what Vassar girls call a "smashing bow" under the left ear.
For Ribbons go to
GEO. DEWALD & CO'S.

Two umbrellas are necessary to every well-to-do one for fair weather and another for rainy days.
For umbrellas go to
GEORGE DEWALD & CO.

Scarfs for the dinner table grow more and more elaborate. Just now those of plush trimmed with lace are in greatest favor.
For table linens go to
DEWALD'S.

A realistic hairpin is a peapod of frosted gold half open, displaying nine pearl peas. An enameled snail nips one of the peas.
For hairpins go to
DEWALD'S.

Purses made out of cats' or kittens' heads are the newest for change. Although reputed "from Paris," they are made in New York.
For purses go to

SCOTT SWANN

Takes the Witness Stand and Tells the Story of the Shooting of Dr. J. W. Younge.

The defense continued its testimony to-day, introducing witnesses to prove that Dr. Younge threatened Captain Swann. Mr. M. V. B. Spencer swore that Dr. Younge threatened to shoot Will Cooper, and others testified to the doctor's inclination to fill graveyards, while the doctor looked on in evident delight. Much time was used arguing as to the admission of the *Detroit Free Press* article as evidence, and Judge O'Rourke let a portion of it in.

Captain Swann was to-day surrounded by his wife and daughter, who were also accompanied by other ladies.

The court room was crowded and everyone pushed forward when Captain Swann was called to the witness stand.

Scott Swann said, I have lived here thirty three years. I served four years in the army, and he then detailed his business.

I met Dr. Younge during the campaign two years ago. He brought me a letter concerning Mr. Blaine. The controversy about the reunion began in January about a year ago. Dr. Younge tried to get possession of the Veteran association. We gave Dr. Younge \$150 to let the association alone, but he did not, and here Captain Swann detailed the suits and counter suits about the reunion and the attendant difficulties.

Continuing Captain Swann said Dr. Younge threatened him and named a dozen people who warned him to beware of the doctor.

A controversy arose about introducing evidence to show that Dr. Younge was an inmate of Joliet, Ill., penitentiary and the Clinton and Auburn prisons of New York state. It was admitted and Captain Swann so testified.

Capt. Swann—it was told me that while an inmate the doctor had deadly poison on his person and threatened the officers of Joliet prison. I hear that the doctor followed and threatened a man who married his first wife while the doctor was in prison.

I heard that Dr. Younge threatened the life of the warden of Joliet prison for giving publicity to his record. Dr. Younge told me himself that he shot a man at a Philadelphia hotel and escaped by a rear door. I was not in the habit of carrying weapons. I knew of Dr. Younge being at Detroit by the newspapers and a telegram I received from that city September 5.

September 7 I was at the Wabash depot to go to Indianapolis with Mr. H. C. Hanna. I concluded at the last moment not to go because of the cost. Mr. Hanna went to Indianapolis for me.

[Here he identified the revolver with which he shot Dr. Younge.]
I borrowed it from Peter Certia en route to the depot, expecting to go away.

I went to the depot Sept. 8 to meet Mr. Hanna to learn what success he had for me. I intended to go to Detroit the next day and wanted to see Mr. Hanna before I left.

Capt. Harper and myself stopped at the depot after meeting Mr. Hanna. We talked with Mr. Stultz of Huntington, who was at the depot. Then we went to Christ Newcomer's and remained there a minute. Captain Harper wanted to see some mail service men and I went over with him.

I stopped near the watch house at the corner for a minute and then walked as far as the bus stand. I did not expect to meet Dr. Younge. Captain Harper said, "I'll go over," and I said, "I'll stay here." I was standing with my hands in my breeches pocket, when I looked about and saw John W. Younge coming towards me. When I first seen him he held his cane in his right hand. He raised his cane I thought to attack me. He then changed his cane and put his hand back to his hip pocket. I believed he was going to shoot me with a hair trigger revolver I heard he had. I knew I must act quickly and pulling my pistol I shot, supposing the doctor was coming towards me. I believed the doctor was shot from the front. I believed it was necessary to shoot to save my own life. Here Captain Swann described on a chart the relative positions of himself and Dr. Younge at the time of the shooting and justified his pursuit of Dr. Younge by saying he supposed he would get behind a car or the scale shed and from over shoot him.

Continuing directly Captain Swann said he did not fire a second shot while pursuing Dr. Younge although he had ample opportunity. He then detailed his arrest by Deputy Sheriff Clausmeyer and the cross-examination began.

Sentenced for Manslaughter.

PLYMOUTH, Ind., Dec. 22.—Charles Taylor, the Vandalia railway passenger conductor who, with his crew, in charge of an excursion train to Lake Maxinkuckee last July, became involved in a fight with some pioneers at the lake, when Frank Leslie was killed by being struck over the head with a club, has been on trial for several days, received a sentence of two years in the Michigan city penitentiary. George Harris, his brakeman, will receive his trial this week. Both men are out on bail furnished by Mr. McKean, of the Vandalia. Taylor was an old employe, having been a conductor on that line over fifteen years.

Fire Record.

DES MOINES, Dec. 22.—A disastrous fire is still raging at Oskaloosa. Loss more than \$40,000, with a prospect to be \$100,000. The fire began in the postoffice.

James E. Graham filed an inventory of the stock of Haller & Metzgar estimating its value at \$4,245.83. He was authorized to conduct its sale.

Ferd Grimmer, of this city, was yesterday granted a pension.

The Weather.

WASHINGTON, Dec. 22.—The weather indications are as follows:

Kentucky, occasional light snow and rain, followed by fair weather, slightly colder.

Ohio and Indiana, fair weather, lower followed by higher temperature.

Michigan, fair weather, slightly warmer.

Perkins Jailed For Contempt.

INDIANAPOLIS, Dec. 22.—Yesterday at the investigation of the charges of conspiracy and forgery in connection with the Marion county tally sheets at the election last month, S. E. Perkins, who had been subpoenaed as a witness, refused to testify; thereupon Commissioner Van Buren committed him to jail for ninety days, or until further order of the court, for contempt of court, and he was at once placed in jail.

Milton Weston Must Pay the Penalty.
PITTSBURG, Dec. 22.—The pardon board in session at Harrisburg last night refused the application for pardon of Milton Weston, charged with manslaughter in the famous Murrayville riot and was convicted. This closes the last loophole of hope against the Chicago millionaire.

A HOUSE IN A HOUSE.
A Magnificent Interior—The Improvements Just Finished by Hattersley & Sons in Their Place of Business.

Messrs. Hattersley & Sons, of 48 East Main street, who for some time past have had workmen engaged in the interior of their place of business, have finished their labors and are now ready to wait on customers. A SENTINEL representative yesterday, through the kindness of one of the firm, was shown this model of perfection which exceeds anything of the kind yet shown in the west, no expense having been spared to set out the ideas of the proprietors in these improvements. In the sanitary department, they have in perfect working order the different styles of sanitary appliances, put up as they would appear in actual operation, fully equipped and connected, thus showing the purchaser their workings, enabling them to make such tests as they desire and satisfying themselves at once of their merits. Next, their exhibit of bath tubs, wash stands, wash trays, street washers, etc., catches the eye. This display embraces an endless variety of designs in the above household fixtures, including the finest and most costly. In gas fixtures they show something yet unseen in this city, and which will well repay a visit from anyone contemplating a purchase of anything in that line. They have on exhibition a complete line of artistic gas fixtures, portable gas stands, and colored etched and cut globes. Also the Pendu light, a light, portable extension fixture of solid, seamless brass, that will not leak, and may be attached to any chandelier and is highly ornamented, making it a handsome piece of furniture.

Their illuminated clock is a handsome and unique piece of mechanism. It consists of a globe similar to a lamp chimney, on which the hours from one to twelve are distinctly out and which revolves once in twelve hours, the time being indicated by a stationary hand, while the light from the gas jet from the inside enables one to note the hour at any time during the night without arising from bed. When making selections for holiday presents do not neglect to visit this house. Gentlemen and courteous attendants will wait on you and deem it a pleasure to show goods.

J. G. BLAINE.

He Will Write a History of the War of 1812 and Visit Europe.

NEW YORK, Dec. 22.—A Washington special to the *Herald*, says: "Blaine will not return to Washington this winter. He is gathering material for a history of the war of 1812. The opening chapters will be written immediately after the holidays. Blaine will go to Europe next autumn and will spend the major portion of his time in France, Germany and Ireland. It is expected by his friends that his presence in Ireland will create great furor.

Secret Business at Indianapolis.

INDIANAPOLIS, Dec. 22.—Two hundred delegates from local assemblies, Knights of Labor, met here, in a state convention in response to a call issued several days ago. The meeting was secret, and careful precautions were taken to prevent anything of the proceedings reaching the public. While it is claimed that no action was taken affecting the political situation, it is understood that there was a discussion of the senatorial contest and that Bynum was favored. A resolution was adopted stating that if either the republican or democratic parties expect any aid from the Knights in 1888 they cannot afford to incur the displeasure of the organization. Steps were taken toward forming a state organization of Knights. While nothing specially significant will be done at this meeting, it is understood that a caucus will be held early in January relative to the part that representatives from among labor men shall take in the political work of the coming legislature.

PRINTERS' FRIEND.
The Price of a Thousand Ems to be Contributed.

PHILADELPHIA, Dec. 22.—Philadelphia Typographical Union No. 2, has appointed a committee to prepare a circular calling the attention of the members to May 12 as Geo. W. Childs' birthday.

On that day every union east of the Mississippi will be expected to contribute the price of 1,000 ems towards swelling the fund for the erection of a big hall in this city, the nucleus of which was the \$10,000 check presented jointly by Geo. W. Childs and A. J. Drexel.

On the birthday of Mr. Drexel the composers west of the Mississippi contributed about \$10,000.

CONGRESS.
The Senate and House After a Short Session Adjourn for the Holidays.

WASHINGTON, Dec. 22.—In the senate Mr. Edmunds, from the committee on foreign relations, reported a bill to provide for the execution of article two of the treaty with China on the subject of the opium traffic.

Mr. Blair, from the committee on pensions, reported a bill to amend the laws relating to pensions.

The calendar resolution introduced by Mr. Dawes on the second day of the session instructing the committee on finance to inquire into and report what specific reductions can be made in the customs duties and internal taxes without impairing the prosperity of home industries or compensation of home labor was taken up and adopted.

Adjourned until Tuesday, January 4, 1887.

The postoffice committee in the house to-day adopted the report submitted by Representative Warner on the subsidized telegraph lines with a few important amendments.

Mr. Warner, of Ohio, from the committee on postoffices and post roads reported a bill requiring all land grant railroad companies to construct, maintain and operate telegraph lines. Referred to a committee of the whole.

The election committee of the house to-day adjourned until after recess, without action upon the pending contest of Steele vs. Kidd, of Indiana.

MUSSEL LYNCHED.
A Mob of Infuriated Citizens Hang Him to an Electric Light Pole Last Night.

CINCINNATI, O., Dec. 22.—News comes from Eaton, Ohio, that the citizens gathered in a body about the court house and assailed the jail, broke into it and took out William Mussel and at 8:15

o'clock had his dead body dangling from the electric light pole in front of the court house. There was an uncontrollable spirit in the crowd that overwhelmed entirely all the efforts of the officers to protect the prisoner. A plan had been made to remove Mussel to some other jail last night but the mob got in its work before the plan could be carried out.

Cracked His Skull.

DECATUR, Ind., Dec. 22.—William Hogland, a prominent citizen, living three miles east of this city, was chopping down a tree, and in falling it struck another tree, breaking off a limb, which flew back, striking him on the head and fracturing his skull. He has been lying very low at his home ever since. His recovery is very doubtful.

A Wonderful Century.

In the history of the world's accomplishments no such array of events has been recorded to mark the development and signalize the resources of the human mind as the achievement of actors on the stage of the century now nearing its end. To have been identified with a period of time in which the vocations of life have been broadened and those engaged therein ennobled, dignified and elevated is, in itself, an individual glory.

The length and breadth of the stage involving a century of time is comprehended only in the true conception of the meaning of 100 years. Dating from the period when Christians commence the computation of anything and a century is but the eighteenth part of the whole. Remember this, it is not remarkable and worthy, in a special sense, the attention of the thoughtful, that since America's independence, the strides into the boundless space of the undeveloped resources which lie before have been of a character bespeaking not only the intelligence of this great people, but as well their calling under heaven to the vanship in the strife for the place of honor? The student of the history of the events which made the worthy and gave power to the unworthy of former epochs, may, if he lives in the past, un mindful of the dissipation of the gloom that was, be inclined to place the "golden age" in times when "noblemen were destitute;" when if you please, the farmer, mechanic and shopkeeper "breakfasted on loaves," the sight of which in our day would be the signal for the inauguration of a riot in any modern workshop. In those ancient days, of which the present antiquarian sings and moulds his thoughts and hearts to reverence, "a clean shirt once a week was a privilege reserved for the higher class of gentry;" when men died faster in the health sustaining air of the country, than they die now in the alley, and pestilential tenement houses of our cities. Reviewing these facts we are not forgetful of the truth that we too, in our turn, shall be outstripped. Among the events that may crown and glorify the succeeding century over the one about finishing its written volume, is the possibility in the avenues of an obscure future of the completion of the government building, bridging the Atlantic, transmitting mail under the sea, fortified against seismic disturbances, etc. While it is not the object of this paper to tabulate in chronological order the incidents which have made the past century a prominent one, or to sketch on the canvas of your imagination the possibilities which lie before, yet the writer would be derelict of duty and alike unfaithful to the object and title of this subject did he not mention as primary among the local important events of the ten decades referred to, the fact that Meyers' New Drug Store has kept pace with the march of progress. When you go shopping and mingle with the throng of Christmas buyers, get the direction of the crowd, join it and the opportunities at Meyers' New Drug Store will compensate and please you.

HANDS OFF.

Is What a Knight of Labor Says to the
Old Party Politician.

This communication appeared in the
last issue of the *Dispatch*, a labor organ
edited by Mr. James Mitchell, who is
himself a Knight of Labor:

To the Editor of the Fort Wayne *Dispatch*.
The *Gazette* of Sunday says the
Knights of Labor have selected a young
man to run for city clerk. I am a Knight
of Labor in good standing and know of
no such selection. Is it possible that
the Knights of Labor allow a little re-
publican coterie about the *Gazette* office
to do their selections for candidates.

The republican party during the thirty
years of its dominance proved itself as
great a tool of monopoly as ever the
democratic party did. Now if the
Knights of Labor of Fort Wayne are
merely to be run as an adjunct to a cer-
tain republican clique of schemers to
dictate all the candidates for office, in
the name of the workmen, I will
have nothing to do with such an ar-
rangement. Some of the men put up
for the legislature in the name of the
Knights of Labor never denied the al-
legation that they would have voted for
that kid-gloved snob and tool of monopol-
ists, Ben Harrison, if they had been
elected. A candidate put up in the
name of labor must not be put up by
old party politicians, and must tell the
people honestly and squarely what he
will do if elected. If the republican
politicians through their organ, the *Gaz-
ette*, attempt to put up slates for the
workmen, then the workmen
should repudiate such slates, and put
up their own candidates. The curse of
the order at Fort Wayne is that too
many old party politicians have crept
into it, and are attempting to use the
order to grind their own axes. Let the
republican and democratic politicians
keep their slimy hands off, and run
their own machines. When the proper
time arrives the organized labor of Fort
Wayne will put up a ticket to suit itself,
regardless of the dictation of the old
party politicians or their newspaper or-
gans.

The "steps" contemplate the support of all the business houses represented by the commercial travelers, and, before long, the association will again present their requests to the railroads for non-transferable one-thousand mile books at a rate of 1 1/2 cents per mile, and for extra baggage allowances, and the request will be backed up by the business houses, who will combine to give all their freight as well as passenger business to the roads that grant to the traveling men what they ask. The preliminary steps have been about completed and the request will soon be made. The result will be awaited with interest.

Beware of Scrofula

Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sore eyes, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy. It was severely afflicted with scrofula, and over a year had two running sores on my neck. Took five bottles Hood's Sarsaparilla, and am cured." C. E. LOVEJOY, Lowell, Mass.

C. A. Arnold, Arnold, Me., had scrofulous sores for seven years, spring and fall. Hood's Sarsaparilla cured him.

Salt Rheum

Is one of the most disagreeable diseases caused by impure blood. It is readily cured by Hood's Sarsaparilla, the great blood purifier.

William Spies, Elyria, O., suffered greatly from erysipelas and salt rheum, caused by handling tobacco. At times his hands would crack open and bleed. He tried various preparations without aid; finally took Hood's Sarsaparilla, and now says: "I am entirely well."

"My son had salt rheum on his hands and on the calves of his legs. He took Hood's Sarsaparilla and is entirely cured." J. B. Stanton, Mt. Vernon, Ohio.

SCOTT SWANN

Takes the Witness Stand and Tells the Story of the Shooting of Dr. J. W. Young.

The defense continued its testimony today, introducing witnesses to prove that Dr. Young threatened Captain Swann, Mr. M. V. B. Spencer swore that Dr. Young threatened to shoot Will Cooper, and others testified to the doctor's inclination to fill graveyards while the doctor looked on in evident delight. Much time was used arguing as to the admission of the Detroit Free Press article as evidence, and Judge O'Rourke let a portion of it in.

Captain Swann was to-day surrounded by his wife and daughter, who were also accompanied by other ladies. The court room was crowded and everyone pushed forward when Captain Swann was called to the witness stand.

Scott Swann said, I have lived here thirty three years. I worked four years in the army, and he then detailed his business. I met Dr. Young during the campaign two years ago. He brought me a letter concerning Mr. Blake. The controversy about the reunion began in January about a year ago. Dr. Young tried to get possession of the Veteran association. We gave Dr. Young \$150 to let the association alone, but he did not, and here Captain Swann detailed the suits and counter suits about the reunion and the attendant difficulties. Confining Captain Swann said Dr. Young threatened him and named a dozen people who warned him to beware of the doctor.

A controversy arose about introducing evidence to show that Dr. Young was an inmate of Joliet, Ill., penitentiary and the Clinton and Auburn prisons of New York state. It was admitted and Captain Swann so testified.

Capt. Swann—I was told one that while an inmate the doctor had deadly poison on his person and threatened the officers of Joliet prison. I hear that the doctor followed and threatened a man who married his first wife while the doctor was in prison.

I heard that Dr. Young threatened the life of the warden of Joliet prison for giving publicity to his record. Dr. Young told me himself that he shot a man at a Philadelphia hotel and escaped by a rear door. I was not in the habit of carrying weapons. I know of Dr. Young being at Detroit by the newspapers and a telegram I received from that city September 5.

September 7 I was at the Wabash street to go to Indianapolis with Mr. H. I. Hanna. I concluded at the last moment not to go because of the cost. Mr. Hanna went to Indianapolis for me.

[Here he identified the revolver with which he shot Dr. Young.]

I borrowed it from Peter Cortis en route to the depot, expecting to go away.

I went to the depot Sept. 8 to meet Mr. Hanna to learn what success he had for me. I intended to go to Detroit the next day and wanted to see Mr. Hanna before I left.

Capt. Harper and myself stopped at the depot after meeting Mr. Hanna. We talked with Mr. Stetzel of Huntington, who was at the depot. Then we went to Christ Newcomer's and remained there a minute. Captain Harper wanted to see some mail service men and I went over that way with him. I stopped near the watch house at the corner for a minute and then walked on for the bus stand. I did not expect to meet Dr. Young. Captain Harper said, "I'll go over," and I said, "I'll stay here." I was standing with my hands in my breeches pocket, when I looked about and saw John W. Young coming towards me. When I first seen him he held his cane in his right hand. He raised his cane I thought to attack me. He then changed his cane and put his hand back to his hip pocket. I believed he was going to shoot me with a hair trigger revolver I heard he had. I knew I must not quickly and pulling my pistol I shot, supposing the doctor was coming towards me. I believed the doctor was shot from the front. I believed it was necessary to shoot to save my own life. Here Captain Swann described on a short the relative positions of himself and Dr. Young at the time of the shooting and justified his pursuit of Dr. Young by saying he supposed he would get behind a car or the seat and run from cover about him.

Continuing directly Captain Swann said he did not fire a second shot while pursuing Dr. Young although he had ample opportunity. He then detailed his arrest by Deputy Sheriff Claumeyer and the cross-examination began.

Sentenced for Manslaughter.

LIZMOUTH, Ind., Dec. 22.—Charles Taylor, the Vandalla railway passenger conductor who, with his crew, in charge of an excursion train to Lake Maxinkuckee last July, became involved in a fight with some pleasureers at the lake, when Frank Leslie was killed by being struck over the head with a club, has been on trial for several days, received a sentence of two years in the Michigan city penitentiary. George Harris, his brakeman, will receive his trial this week. Both men are out on bail furnished by Mr. McKean, of the Vandalla. Taylor was an old employee, having been a conductor on that line over fifteen years.

Fire Record.

DREXEL, Dec. 22.—A disastrous fire is still raging at Oaklaoma. Loss more than \$100,000, with a prospect to be \$100,000. The fire began in the postoffice.

James B. Graham filed an inventory of the stock of Haller & Metzger estimating its value at \$1,245.83. He was authorized to conduct its sale.

Ford Grimes, of this city, was yesterday granted a pension.

The Weather.

WASHINGTON, Dec. 22.—The weather indications are as follows:

Kentucky, occasional light snow and rain, followed by fair weather, slightly colder.

Ohio and Indiana, fair weather, lower followed by higher temperature.

Michigan, fair weather, slightly warmer.

Perkins Jailed for Contempt.

INDIANAPOLIS, Dec. 22.—Yesterday at the investigation of the charges of conspiracy and forgery in connection with the Marion county tally sheets at the election last month, B. E. Perkins, who had been subpoenaed as a witness, refused to testify; thereupon Commissioner Van Buren committed him to jail for ninety days, or until further order of the court, for contempt of court, and he was at once placed in jail.

Milton Weston Must Pay the Penalty.

A HOUSE IN A HOUSE.

A Magnificent Interior—The Improvements Just Finished by Hattersley & Sons in Their Place of Business.

Messrs. Hattersley & Sons, of 48 East Main street, who for some time past have had workmen engaged in the interior of their place of business, have finished their labors and are now ready to wait on customers. A SYSTEMATIC representative yesterday, through the kindness of one of the firm, was shown this model of perfection which makes anything of the kind yet shown in the west, no expense having been spared to put out the ideas of the proprietors in their improvements. In the sanitary department, they have in perfect working order the different styles of sanitary appliances, put up as they would appear in actual operation, fully equipped and connected, thus showing the purchaser their various styles, enabling them to make such tests as they desire and satisfying themselves at once of their merits. Next, their exhibit of bath tubs, wash stands, wash trays, street washers, etc., catches the eye. This display embraces an endless variety of designs in the above household fixtures, including the finest and most costly. In gas fixtures they show something yet unseen in this city, and which will well repay a visit from anyone contemplating a purchase of anything in that line. They have on exhibition a complete line of artistic gas fixtures, portable gas stoves, and colored gas lights, a light, portable extension fixture of solid, seamless brass, that will not dent, and may be attached to any standard and is highly ornamented, making it a handsome piece of furniture. Their illuminated clock is a mechanical and unique piece of mechanism. It consists of a globe similar to a lamp chimney, on which the hours from one to twelve are indicated by the time being indicated by a stationary hand, while the globe one to note the hour at any time during the night, without arising from bed. When making selections for holiday presents do not neglect to visit this house. Graciously and courteous attendants will wait on you and deem it a pleasure to show goods.

J. G. BLAINE.

He Will Write a History of the War of 1812 and Visit Europe.

NEW YORK, Dec. 22.—A Washington special to the Herald, says: "Blaine will not return to Washington this winter. He is gathering material for a history of the war of 1812. The opening chapters will be written immediately after the holidays. Blaine will go to Europe next autumn and will spend the major portion of his time in France, Germany and Ireland. It is expected by his friends that his presence in Ireland will create great fervor."

Secret Business at Indianapolis.

INDIANAPOLIS, Dec. 22.—Two hundred delegates from local assemblies, Knights of Labor, met here, in a state convention in response to a call issued several days ago. The meeting was secret, and careful precautions were taken to prevent anything of the proceedings reaching the public. While it is claimed that no action was taken affecting the political situation, it is understood that there was a discussion of the senatorial contest and that Bryan was favored. A resolution was adopted stating that if either the republican or democratic parties expect any aid from the Knights in 1888 they cannot afford to incur the displeasure of the organization. Steps were taken toward forming a state organization of Knights. While nothing especially significant will be done at this meeting, it is understood that a caucus will be held early in January relative to the part that representatives from among labor men shall take in the political work of the coming legislature.

PRINTERS' FRIEND.

The Price of a Thousand Em's to be Contributed.

On that day every union east of the Mississippi will be expected to contribute the price of 1,000 em's towards swelling the fund for the erection of a big hall in this city, the nucleus of which was the \$10,000 check presented jointly by Geo. W. Childs and A. J. Drexel. On the birthday of Mr. Drexel the contributors west of the Mississippi contributed about \$10,000.

CONGRESS.

WASHINGTON, Dec. 22.—In the senate Mr. Edmunds, from the committee on foreign relations, reported a bill to provide for the execution of article two of the treaty with China on the subject of the opium traffic.

Mr. Blair, from the committee on pensions, reported a bill to amend the laws relating to pensions.

The calendar resolution introduced by Mr. Dawes on the second day of the session instructing the committee on finances to inquire into and report what specific reductions can be made in the customs duties and internal taxes without impairing the prosperity of home industries or compensation of home labor was taken up and adopted. Adjourned until Tuesday, January 4, 1887.

The postoffice committee in the house to-day adopted the report submitted by Representative Warner on the subsidized telegraph lines with a few important amendments.

Mr. Warner, of Ohio, from the committee on postoffices and post roads reported a bill requiring all land grant railroad companies to construct, maintain and operate telegraph lines. Referred to a committee of the whole.

The election committee of the house to-day adjourned until after recess, without action upon the pending contest of Steele vs. Kihl, of Indiana.

MUSSEL LYNCHED.

A Mob of Infuriated Citizens Hang Him to an Electric Light Pole Last Night.

CINCINNATI, O., Dec. 22.—News comes from Erlou, Ohio, that the citizens gathered in a body about the court house and smashed the jail, broke into it and took out William Mussel and at 8:15

o'clock had his dead body hanging from the electric light pole in front of the court house. There was an uncontrollable yell in the crowd that overwhelmed entirely all the efforts of the officers to protect the prisoner. A plan had been made to remove Mussel to some other jail last night but the mob got in its work before the plan could be carried out.

Cracked His Skull.

DECATUR, Ind., Dec. 22.—William Hogland, a prominent citizen, living three miles east of this city, was chopping down a tree, and in falling it struck another tree, breaking off a limb, which flew back, striking him on the head and fracturing his skull. He has been lying very low at his home ever since. His recovery is very doubtful.

A Wonderful Century.

In the history of the world's accomplishments no epoch of events has been recorded to mark the development and signalize the resources of the human mind as the achievement of actors on the stage of the century now nearing its end. To have been identified with a period of time in which the vocations of life have been broadened and those engaged therein enabled, dignified and elevated in, in itself, an individual glory.

The length and breadth of the stage involving a century of time is comprehended only in the true conception of the meaning of 100 years. Dating from the period when Christians commenced the computation of the consequence of anything and a century is but the eighteenth part of the whole. Remember this, it is not remarkable and worthy, in a special sense, the attention of the thoughtful, that since America's independence, the strides into the boundless space of the undeveloped resources which lie before have been of a character bespeaking not only the intelligence of this great people, but as well their calling under heaven to the vanquish in the strife for the place of honor? The student of the history of the events which mark the century gave power to the unworship of former epochs, may, if he lives in the past, be mindful of the disintegration of the golden age in times when "noblemen were delicate," when if you please, the "farmer, mechanic and shopkeeper," "brinkled on laurels," the sight of which in our day would be the signal for the immigration of a riot in any modern workshop. In those ancient days, of which the present antiquarian sings and mumbles his thoughts and hearts to reverence, "a clean shirt once a week was a great reward for the higher class of gentility;" when men died later in the health sustaining air of the country, than they die now in the alley, and presidential tombstone houses of our cities. Reviewing these facts we are not forgetful of the truth that within, in our time, shall be entered. Among the events that may crown and glorify the succeeding century over the one about fulfilling its written volume, is the possibility in the avenues of an obscure future of the completion of the government building bridging the Atlantic, transmitting mail matter the sea, fighting against seismic disturbances, etc. While it is not the object of this paper to tabulate in chronologic order the incidents which have made the past century a prominent one, or to sketch on the canvas of your imagination the possibilities which lie before, yet the writer would be derelict of duty and alike unfaithful to the object and title of this subject did he not mention as primary among the local important events of the ten decades referred to, the fact that Meyer's New Drug Store has kept pace with the march of progress. When you go shopping and mingle with the throng of Christmas buyers, get the direction of the crowd, join it and the opportunity of Meyer's New Drug Store will compensate and please you.

HANDS OFF.

Is What a Knight of Labor Says to the
Old Party Politician.

This communication appeared in the
last issue of the *Dispatch*, a labor organ
edited by Mr. James Mitchell, who is
himself a Knight of Labor:

To the Editor of the Fort Wayne *Dispatch*.
The *Gazette* of Sunday says the
Knights of Labor have selected a young
man to run for city clerk. I am a Knight
of Labor in good standing and know of
no such selection. Is it possible that the
Knights of Labor allow a little re-
publican cozier about the *Gazette* office
to do their selections for candidates?

The republican party during the thirty
years of its dominance proved itself as
great a tool of monopoly as ever the
democratic party did. Now if the
Knights of Labor of Fort Wayne are
merely to be run as an adjunct to a cer-
tain republican clique of schemers to
displace all the candidates for office, in
the name of the workmen, I will
have nothing to do with such an ar-
rangement. None of the men put up
for the legislature in the name of the
Knights of Labor ever denied the al-
legation that they would have voted for
that big-gloved mob and tool of monopo-
lists, Ben Harrison, if they had been
elected. A candidate put up in the
name of labor must not be put up by
old party politicians, and must tell the
people honestly and squarely what he
will do if elected. If the republican
politicians through their organ, the
Gazette, attempt to put up slaves for the
workmen, then the workmen
should repudiate such slaves, and put
up their own candidates. The curse of
the order at Fort Wayne is that too
many old party politicians have crept
into it, and are attempting to use the
order to grind their own axes. Let the
republican and democratic politicians
keep their slimy hands off, and run
their own machines. When the prop-
er time arrives the organized labor of Fort
Wayne will put up a ticket to suit itself,
regardless of the dictation of the old
party politicians or their newspaper or-
gans.

Body Found in a Canal at Lafayette.

LAFAYETTE, Ind., Dec. 22.—Boys
playing shinny on the canal yesterday
afternoon broke the ice to remove a
piece of cloth that had been frozen in,
and in doing so brought to view a human
ear and later the body of Henry Cum-
mings, a shoemaker, who had been ab-
sent a week. Cummings, while drunk,
fell into the water, and the weather
having very cold, his body was frozen
in.

It is stated that the Commercial Travelers' association is to at once take steps to compel the railroads to grant them what they regard as their rights. The "steps" contemplate the support of all the business houses represented by the commercial travelers, and, before long, the association will again present their requests to the railroads for non-transferable one-thousand mile books at a rate of 15 cents per mile, and for extra baggage allowances, and the request will be backed up by the business houses, who will combine to give all their freight as well as passenger business to the roads that grant to the traveling men what they ask. The preliminary steps have been about completed and the request will soon be made. The result will be awaited with interest.

Beware of Scrofula

Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sarcores, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy. It was severely afflicted with scrofula, and over a year had two running sores on my neck. Took five bottles Hood's Sarsaparilla, and am cured." O. E. Loomis, Lowell, Mass.

C. A. Arnold, Arnold, Me., had scrofula sores for seven years, spring and fall. Hood's Sarsaparilla cured him.

Salt Rheum

Is one of the most disagreeable diseases caused by impure blood. It is usually cured by Hood's Sarsaparilla, the great blood purifier.

William Spies, Elyria, O., suffered greatly from erysipelas and salt rheum, caused by handling tobacco. At times his hands would crack open and bleed. He tried various preparations without aid; finally took Hood's Sarsaparilla, and now says: "I am entirely well."

"My son had salt rheum on his hands and on the calves of his legs. He took Hood's Sarsaparilla and is entirely cured." J. B. Standen, Mt. Vernon, Ohio.
